FRONT PORCH POLICY GOES ON

Harry M. Daugherty Announces No Change Will be Made Outside of Few Speeches By Harding Elsewhere.

Says Republicans Are Conducting Campaign of Dignity In Front Porch Method.

(By Associated Press)

Marion, O., August 20.—Senator Harding's campaign for the presidency will go on as previously planned, regardless of the strategy adopted by the Democrats, it was said here today by Harry M. Daugherty, a member of the Republican Executive Committee, after a conference with the nominee.

There was no intention, he declared, of abandoning the front porch policy, though some speeches would be made in other cities.

"A campaign at all times must be in harmony with the candidates and the cause," said Mr. Daugherty. "Now that both leading candidates have been nominated for some time, and have spoken somewhat frequently since their nomination, the different styles of campaigning must be more or less apparent to those who have been observing events."

"As far as the plans of the Republican party are concerned, they will go on in orderly fashion as laid out from time to time by Chairman Hays and the committee."

"Without assuming to speak for anybody but myself, I think I can safely say the American people must not expect a campaign of bombast to be conducted by, or in behalf of, the Republican candidate or party."

"A campaign of personalities may not be expected, nor a campaign which appeals to prejudice; but rather a campaign of dignity."

NEWARK MAN NEW CHAIRMAN OF COMMITTEE

Republicans Meet And Reorganize New State Central Committee.

Canton Man Expected to Head Executive Committee

(By Associated Press)

Columbus, O., August 20.—Major Chas. S. Montgomery, Newark, president of the Ohio League of Republican Clubs, was chosen chairman of the new Republican State Central Committee at an organization meeting here today.

Peter W. Durr, J. C. Hughes, Piqua and C. S. Hatfield, Bowling Green, were named a sub-committee to report back this afternoon as to the number of women to be appointed to the executive committee.

The executive committee is to be composed of the membership of the central committee, of which there are 22 members, and as many more as the sub-committee deems necessary. A chairman of the executive committee is to be chosen this afternoon. Geo. H. Clark, Canton, present head of the advisory committee, it was predicted, has a certain chance of being named as he is known to be the choice of state leaders.

RUNNING ON PROHIBITION TICKET, THOUGH U. S. IS ALREADY SAHARA

Leigh Colvin, his wife and daughter Virginia.

Though the United States is already as dry as law can make it, the Prohibition party has nominated candidates for president and vice president, and hopes to win in November. The dry party's nominee for vice president is Leigh Colvin, whose home is in New York. Colvin has long been known as a Prohibition lecturer.

HARDING PRAISES SENATE

(By Associated Press)

Marion, August 19.—Reaffirming his faith in "party sponsorship in government" Senator Harding said in a speech here today that his Democratic critics were entirely correct in supposing that if elected president he "would permit the Senate to have some say in determining the policy of the government."

"The Senate saved American nationality in 1919 and 1920," said the Republican nominee, "when the executive proposed to surrender it."

"I want to have done with personal government in this country. I want to put an end to autocracy, which has been reared in the names of Democracy."

The speech was delivered from the front porch to a delegation of members and former members of the Ohio legislature.

GAS EXPLODES TWO MEN DEAD MANY INJURED

Buildings Wrecked When 2000 Gallon Tank of Gasoline Lets Go.

Thousands of Workmen Terrorized in Factories

(By Associated Press)

Syracuse, N. J., August 20.—Two men were killed and twelve hurt when a 2,000 gallon gasoline reservoir, the property of the C. E. Mills Oil Company, exploded here today. Searchers discovered the bodies of the men under tons of mortar and debris.

Windows in nearby dwellings and manufacturing plants were wrecked. Thousands of workers in the vicinity became panic stricken when brick and heavy mortar slabs blown high into the air struck the surrounding buildings, in some instances going through the roof.

TWO ARE KILLED IN PISTOL DUEL

(By Associated Press)
Winchester, Ky., August 20.—R. G. Philpot, chief of police, and Deputy Sheriff Reed were killed and special officer Joseph Shively and Carl Estis were wounded in a pistol duel over the arrest of Estis on a bootlegging charge by city and county officials at Irvine, Ky., last night.

GOVERNOR BACK HAS BUSY TOUR AHEAD OF HIM

Speaks in Indiana, Pennsylvania And Connecticut Within A Week.

Next Addresses at Orville And Canton.

(By Associated Press)

Columbus, O., August 20.—Governor Cox returned here shortly before noon today from South Bend, Indiana, where in two speeches yesterday he charged the Republicans with collecting a campaign fund of \$15,000,000.

The Democratic presidential candidate will continue his speaking campaign with two addresses at Orville, Ohio, in the afternoon and in the evening at Canton, Ohio.

He will return here Sunday to prepare for another trip next week calling for speeches at Evansville, Ind., Pittsburg, New Haven, Conn., and New York, prior to his swing around the circle in the West during September.

HOLD UP BANK GET \$10,000

(By Associated Press)

Toledo, O., August 20.—Two men today held up the Peoples State Savings Bank branch in East Toledo, bound and gagged two clerks and escaped with loot estimated at \$10,000. The bank employees were placed in a vault before the bandits drove away in an automobile.

FARMER KILLED BY HAY LADDER

(By Associated Press)

Lancaster, O., August 20.—C. A. Welch, 48, wealthy farmer and banker of Bremen, was instantly killed last night when a hay ladder fell on him, breaking his neck. The accident occurred at his farm east of Bremen. He leaves a widow and children.

NO VOTE SOLONS ADJOURN FOR DAY

Parliamentary Tactics in Tennessee May Prevent Reconsideration of Suffrage Vote

Expect To Table Motion Tomorrow and Prevent Another Vote.

(By Associated Press)

Nashville, Tenn., August 20.—Suffrage leaders forced adjournment of the Tennessee House today before Speaker Walker made any motion to reconsider the ratification of the federal suffrage amendment.

Opponents thus lost their right to reconsider but the suffrage forces planned to make such a motion tomorrow and then to table it, thus making it impossible for any further parliamentary tactics to reconsider the House's original action.

TO PROBE METHODS IN TENN. FIGHT

(By Associated Press)

Nashville, Tenn., August 19.—Failure of anti-suffrage leaders today to attempt to force the lower house of the legislature to reconsider its action of yesterday ratifying the woman suffrage amendment was overshadowed in interest by the launching of a county grand jury investigation into charges that improper influences had been brought to bear on members of the legislature in their consideration of the measure. Publication by the Nashville Tennessean and the Nashville Banner of two affidavits attributed to C. C. Wallace, judge of the city court of Lewisburg, Tenn., and Ennis F. Murray, of Nashville general agent of the federal land bank of Louisville, alleging that an attempt had been made by a suffrage leader to bribe Representatives Harry T. Burn, Republican, of McMinn County, also was a feature of the day's developments.

The grand jury in the Davidson County criminal court lost no time in getting to work and before noon had summoned J. T. Eichelberger, of Washington, D. C., a publicity man. He was before the jury two hours.

HUNGER STRIKE CAUSES UPROAR IN PENITENTIARY

Baltimore Prison is Scene Of Demonstration During The Night.

Tear Out Electric Light Wiring And Thwart Efforts to Quell Riot.

(By Associated Press)

Baltimore, Md., August 20.—More than fifty "hunger strikers" started a riot in a dormitory of the Maryland penitentiary here this morning.

Shortly before 3 o'clock, the men, who had been segregated, tore out the electric lights, and with the building in darkness started a demonstration that lasted for two hours.

Breaking out of their cells, the men set up a shouting and general racket that could be heard for blocks. City policemen responded to a riot call, but had little success in quelling the disturbance in the darkness.

This morning's demonstration resulted from a strike a few days ago of prisoners who declared they would not work unless given a better variety of food.

DEMOCRATS' CHOICE FOR SENATORIAL TOGA IN ARKANSAS

Thaddeus H. Caraway.

Representative Thaddeus H. Caraway, of the first Arkansas district, has apparently beaten U. S. Senator William F. Kirby for the latter's renomination. Senator Kirby's war record was attacked in the campaign, his opponent charging that Kirby opposed many measures sponsored by the president prior to America's entrance into the war.

TRIBUTE IS PAID TO STAR OF TEAM

Chapman Funeral in Cleveland Draws Big Crowd to Cathedral For Last Tribute.

Police Reserves Handle Great Crowds About Church

(By Associated Press)

Cleveland, O., August 20.—Cleveland paid its final tribute to Ray Chapman this morning. Long before ten o'clock, the hour of the funeral services in St. John's Cathedral, thousands of men, women and children had gathered to attend the services for the star shortstop of the Cleveland American League who died in New York Tuesday morning.

When the funeral party left the home and proceeded down Euclid Avenue to the church pedestrians paused and stood at attention as a silent tribute to the baseball idol of Cleveland.

Flags on the city hall, court house and down town buildings were half staff and operations in many industrial plants were suspended for a few minutes at ten o'clock.

As the hour of the services approached the throng at the Cathedral became so dense the full force of mounted police and reserves were called to handle the crowds.

A solemn high mass of requiem by Father W. S. Nash, and the sermon a touching tribute to Chapman, was delivered by Rev. Dr. William S. Scullen, chancellor of the diocese. In opening his sermon Dr. Scullen dwelt on the mysteries of life and death and took for his text: "I am the resurrection and the life; he that believeth in me shall not taste death forever."

POLISH SUCCESS IS CONTINUING

(By Associated Press)

Paris, August 20.—The military successes of the Poles continued yesterday, according to a report to the Foreign Office today from the military mission in Warsaw. Under plans elaborated by the French General Weygand and his staff of more than six hundred French officers.

All these officers now are either actively in command of the forces that are freeing Warsaw from the Russian soviet menace or are aiding the Polish commanders.

New York, August 19.—The International Sporting Club today announced the signing of a contract for a 15-round decision bout between Georges Carpentier, European champion, and Battling Levinsky, world's lightweight champion to be held at Elbets Field, Brooklyn, October 12.

G. O. P. RAISING GREAT SUM CHARGES GOV. COX

(By Associated Press)

South Bend, Ind., August 19.—Charges that at least \$15,000,000 are being contributed to the Republican campaign fund by selfish interests were made today by Governor Cox. "That is its low mark," he said "and the sky apparently is the limit."

They have subdivided America into seven districts and influential men representing selfish interests are passing the hat. They are trying to buy a governmental "underbolt."

LAYING OFF MEN TO BE PROBED BY GOVERNOR

Thinks G. O. P. Causing Lay Offs For Political Effect And Will Make Probe.

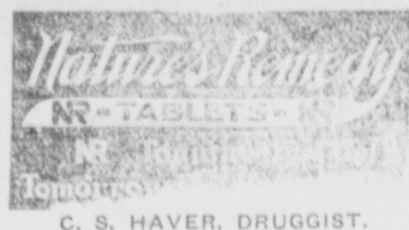

American Woolen Company And "Certain Railroad" Involved

(By Associated Press)

Columbus, O., August 20.—Governor Cox said today that he is going to investigate circumstances surrounding the laying off of workmen in various industries following receipt of information that Republican leaders are planning to use "unemployment" as an argument in persuading workmen to vote against the Democratic ticket.

The presidential nominee said the survey first will be directed at the American Woolen Company and a "certain railroad system."

Governor Cox said he had been informed that 1,000 men had been laid off in one Toledo plant alone for "political purposes."

BODY IS FOUND THINK DEAD MAN FROM THIS CITY

Badly Decomposed Body of Man, Believed to be From This City, Found in Bushes Near Xenia.

Local Police Asked to Aid In Establishing Identity Of Dead Man.

The body of an unidentified man, believed to be from this city or county, Friday morning was found in a blackberry patch within two miles of Xenia, and because of the fact that he wore a suit of clothes sold by a firm in this city, and had a spectacle case bearing the name of A. Clark Gossard, optometrist, of this city, it was thought the man belonged here.

Word reaching the authorities in this city was to the effect that the body was in a bad state of decomposition, and it was unable to tell anything about his age. He was dressed in a brown suit, brown felt hat and wore tan shoes.

Indications were that the body had been in the thicket for many days, but whether he had met a violent death or had died of heart trouble, could not be ascertained.

So far as known no one from this city is missing. However, anyone who knows of a resident of this city or county who is missing, and who wears a suit of brown clothing, should call Chief of Police D. L. Moore without delay, so disposition of the body may be made.

OHIOAN DISCOVERS NEW KIND OF GRAIN

A new grain is growing on the farm of C. F. Williams, near West Liberty, and the same is attracting the attention of farmers all over the state. Visitors remark: "There's a field of oats." On closer inspection it is seen that the grain resembles oats but shoots like timothy. Mr. Williams has been experimenting with the grain for three years and in that time has found no one who can tell him just what he is growing.

"The seed is very prolific," Mr. Williams says. "I got a few grains three years ago from Alberta, Can., and after planting them they multiplied enormously. I should think that if a bushel of the seed is planted to an acre of ground, it will return 100 bushels. One grain planted brings four to 10 sprouts."

The stock is about three times as heavy as oat stock, Mr. Williams declared. He is at present growing the grain for seed and experimenting with it in various ways.—London Democrat

SPRINGFIELD MAN AFTER STATE POST

Springfield, August 20.—Wallace S. "Bud" Thomas, Past Commander of George Cultive Post No. 5, American Legion, Springfield, will be a candidate for state commander of the legion at the convention which opens Monday in Youngstown, according to an announcement made here today by the Thomas campaign committee.

Thomas was the first commander of the local post, which he was instrumental in organizing, and it was under his direction and management that it became the second strongest post, in point of numbers, in the state. The local post is also one of the strongest financially in the state, having more than \$12,000 in its treasury.

ABLE SERMONS FEATURE MEET

Colored Baptists Are Concluding Conference Here.

The concluding session of the Eastern Union of Baptist, which has been holding a general conference at Memorial Hall the past two days, will be held Friday evening.

Each session has been marked by able sermons which have been of great inspiration to ministers and messengers as well as to members of the local church in attendance, and the occasion has been one which will long be remembered by all participating.

Progress made by the church and plans for the future have been discussed at considerable length, and the meeting has been one of pronounced benefit to the society.

The speakers have included some of the best known pastors of the church in the state of Ohio.

MEN WHO HANDLE RACES AT FAIR

Racing at the Fayette County Fair is being most capably handled this year by a corps of competent starters, judges and other officials.

Frank L. Johnson, of Xenia, experienced track man, is in the stand as starter.

The two judges are George Cox of this city and George Blessing of Jeffersonville, both men thoroughly experienced.

Timers of no less efficiency are Charles Mark, A. B. Stroud and Frank Roberts, all of this city.

Kent Hopkins is clerk of the course.

DEATH OF BABE REPORTED AT FAIR

Report was current on the Fayette County Fair grounds Thursday afternoon that a child had died suddenly. According to the story the child had died while its mother was riding on the merry-go-round.

Undertakers in this city had not been called for service and they were not apprised of any death occurring on the fair grounds, which leads to the belief that the report was erroneous.

COUNTY DISPLAYS TO BE ENTERED AT STATE FAIR

For the first time Fayette county is to have a Horticultural county exhibit at the State Fair and every Fayette countyman attending the approaching fair should take the trouble to visit the Agricultural building and see what Fayette can do in this exhibit.

The credit of making this first display goes to Willard C. Kirk, superintendent of the Horticultural department of the local fair, and his brother, Grayson L. and Floyd E. Eichelberger, who had county displays in Horticultural hall.

The Kirks won first and Mr. Eichelberger second on these displays, which will be combined and entered at the State Fair as one county exhibit.

Both displays were given much favorable comment. For them were secured some of the very finest agricultural products of the county, at considerable effort and both exhibits were elaborate, very artistic in arrangement and highly creditable to the county.

BRITISH BLIMPS GIVEN TRYOUT

Barrow, England.—(By Mail)—Britain's latest airship R-80 has just been given a trial for the purpose of trimming and maneuvering rather than speeding. Faster than R-34 by about five miles an hour, the R-80 is about 100 feet shorter with a gas capacity of 1,250,000 cubic feet against the R-34's 2,000,000.

The airship has four motors giving a total horsepower of 960; can average about 50 miles an hour and cruise under full power at 65 miles. She has been built on improved designs which make for speed, strength and durability. has a streamlined hull and can lift about 38½ tons gross.

The trial was carried out without a hitch and the vessel was housed just as easily as she was brought out of the huge shed.

USE THIS HOME RECIPE

A Home Preparation more pleasant and effective than Solution Citrate of Magnesia can be easily made at much less cost. We all realize how valuable Solution Citrate of Magnesia is as a laxative or purgative. Try this home formula. It saves money and is more active:

Procure a bottle of *Rexall Milk of Magnesia* at the Drug Store. Mix together equal quantities (2 to 4 tablespoonfuls) of *Rexall Milk of Magnesia* and lemon juice. Fill glass with cold or carbonated water and sweeten if desired. Take one hour before breakfast. This produces a laxative draught similar in action to Solution Citrate of Magnesia, but more pleasant, effective and economical.

Rexall Milk of Magnesia is best. It is made full U. S. Pharmacopoeial strength and purity and by a process peculiar to this brand alone, which makes it a most elegant and stable compound; almost tasteless, it is pleasant to take, highly efficacious and reliable and not in any way injurious. Be sure to get *Rexall Milk of Magnesia* at the Rexall Drug Store, as it is not obtainable at any other.

CORD TIRES COST MORE

They're Worth the Difference

Men who figure tire cost per mile are coming to Cord Tires. They have learned that Cords are worth the difference. And you will admit that that is the only reliable method of computing tire cost—per mile of service rendered. But any tire, Cord or Fabric, should be built to give the most miles possible at a given cost.

You might pay an extra price, expecting extra service; or you might pay an under price and hope for service. Don't do either. The tires you find here at our prices, on the average, give the lowest cost per mile. Only in Cord Tires is the extra price justified, because you DO get extra service from Cords.

Emancipation Comes

Bringing to close a seventy year battle, the war for suffrage for women came to an end on Wednesday when the lower branch of the Tennessee general assembly, by a vote of 49 for to 47 against, ratified the nineteenth amendment to the federal constitution freeing the women of America from the last of political disabilities and making their emancipation complete.

The glorious women of America are unfettered, free now to express their opinions through the ballot box, to assist in making the laws of the land and to have a voice in the selection of public officials.

It has been a long, long fight. A patient and yet a determined war which the women have waged.

The action by the Tennessee law makers on Wednesday completes the second long stride forward which America has made during the last five years.

The adoption of the eighteenth amendment frees America of the harmful effect of intoxicating drink and the final adoption of the nineteenth amendment renders available the aid of that greatest of all refining influences, the words and advice of the women with opportunity by ballot to make them effective.

It was a fitting climax to the long struggle that the crown of final victory be placed on the brows of America's fair daughters by the men of the southland where chivalry has never been permitted to lose its control over men.

Sometimes, during the long fight for suffrage for women, we have trembled in fear that our great hopes might not, after all, be realized; that participation in politics might harm the mothers, wives and daughters we love and respect but, always, confidence has returned and we have joined hands with them in their struggle for freedom, believing that the women will not fail in the great work they have undertaken.

We want to see them remain as they are now, just as victory comes to them, a great, free force for good, independent of party alliance except for good.

We hope, and confidently believe, that the women of America will refuse to be made cogs in political machinery and that they will remain steadfast in their struggle to bring about better conditions, recognizing in the future only the division line which marks off the wrong from the right and found only on the right side of that line.

A glorious opportunity is theirs. The day of freedom has come. At the threshold of the new domain we offer them congratulations and express our confidence that the ballot is safe in their hands.

Of course the women can't bring reforms all at once. The main thing is that they keep steadfastly on the right road and refuse to be turned aside.

Improved Conditions

Developments in Europe, particularly along the frontiers of Poland, where, until a few hours ago, the Red armies were sweeping apparently, irresistibly to the capture of Warsaw, are more hopeful.

The civilized world has watched with anxiety the advance of the Bolshevik armies and the steady retreat of the Poles until the Red hordes were knocking at the very gates of Warsaw.

Then the nations of Europe seemed to awaken and assistance was rushed to Poland. The Red tide was checked and now it is being turned back again beyond the Russian border.

The rush of the Bolshevik armies and the narrow margin by which Warsaw was saved from their grasp, at the last minute, has caused the people of Europe and the world to think more seriously and more intently about Bolshevism and to realize the need for a concert of action.

Confined to Russia it is the confident belief of statesmen that Bolshevism has about run its course. With the bonds broken, an outlet gained through Poland's collapse, into fresh fields for plundering and destruction the promises of Lenin and Trotzky to the Russian peasants would be partially redeemed, their hold on the masses strengthened and the world's struggle against anarchy prolonged.

Russia offers but little more opportunity for the lawless plunderers. In that unhappy land complete ruin has been wrought, and about run its course. Unless the armies can force an escape into new fields, the incentive to Bolshevism will disappear.

The world can breath easier with the gate again closed on Soviet Russia.

POETRY FOR TODAY

"If—"

If you can hurry home from shop or office,
And hustle thro' your dinner ere 'tis dark,
In order to go out and tend your garden,
And so outwit the profiteering shark
If you can hasten out to find that chickens
A neighbor's—not your own—have looted there,
And eaten up your summer bed of lettuce
Which you have watched with never-ceasing care;

If you can grit your teeth and keep from cursing,
And start to weed your precious cabbage beds,
To find, alas, that green worms have established
Their domiciles in half a dozen heads;
If you can squeeze the life from these invaders
And then more worms in your tomatoes find,
And still stay out and do the needed hoeing,
And not with anger lose you frenzied mind;

If you can turn at length to your potatoes
To view them with a gardener's pure zeal,
And be obliged to crush with sickening noises
Potatoes burg each moment 'neath your heel,
If you can still keep up your enthusiasm
And spend your hard earned coin for Paris green,
If you can say to friends who call up on you—
"Excuse me I'm too busy to be seen."

If you can lose your family's affection
Because of your "neglect" these summer nights,
If you can still have faith in that old garden
Which providence Himself sees fit to blight,
If you can bear the slights all heap upon you,
Still pull the weeds and "squish" the bugs—and smile—
If you can do all this, why, then—
doggone you—
I say you are a gardener worth while.

HILLERY TO BOX IN PRELIMINARY

Joe Serra Takes Local Strong Boy In Charge and Will Groom Him For First Match.

Joe Serra, matched to box Young Webb, of Dayton, ten rounds at the Armory Monday evening, August 30th, was down from Columbus Thursday arranging for his appearance in a local ring and also to lineup Tom Hillery Washington strong boy for a bout with the mits as the preliminary for the Serra-Webb match.

Under the arrangement Hillery will meet Johnny Anderson a Columbus boy who is also getting started with the mits. The bout will probably be for four or five rounds.

Serra gave Hillery a workout at the Y. M. C. A. gym Thursday afternoon and after looking over the heavy weight wrestler decided that just one punch would spell gloom for an opponent. Serra, veteran of fights without number, is of the opinion that Tom will make a better fighter than grappler and will take him in charge for a few days to polish off the rough places.

Anderson, Hillery's first opponent with the mits is also a new hand at the game and is of about the size and build of the local boy. Serra thinks that they will furnish a good match for the preliminary.

THOUSANDS SEE CLASSY RACING AT COUNTY FAIR

Thousands packed in the stands at the Fayette County Fair grounds Thursday afternoon saw what was probably one of the greatest days of racing ever staged on the local track. The most hotly contested race of the day was the 2:13 pace for a purse of \$400 in which there were six heats and which was won by Lacy, owned by James Webb, of Greenfield, over Helen McKinney, owned by William Pavey, of Sabina.

The second event was the first one of the racing program to be taken in straight heats but furnished exciting finishes.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

The home of Mr. and Mrs. J. B. Armstrong was the scene of a very pretty wedding at 7:45 last Thursday evening when their daughter Miss Lola May became the bride of Mr. Fred G. King, of Springfield, Rev. J. H. Hutchin, pastor of the First Congregational church of that city performing the ceremony.

Just before the young couple took their places Mrs. Marshall Ensign, a friend of the bride sang beautifully, "I Love You Truly," "Hearts and Flowers" a pretty saxophone and piano duet was played by Mr. and Mrs. Ensign accompanying the ceremony.

Decorations artistically used in the home were fall flowers and luxuriant potted plants.

The bride looked beautiful in a gown of white georgette. Her traveling suit was a blue silver tone trimmed in black with black hat, gloves and shoes en suite.

Miss Armstrong has successfully filled the position of post mistress of Jeffersonville for the last three years while Mr. King, is a man of quite a little prominence in Clark County, where for several years he has held the position of recorder.

Mr. and Mrs. King left immediately after the ceremony for a motoring trip East to visit Washington, D. C. Philadelphia and Atlantic City. They will be at home after September the twelfth at 129 W. Grand Ave., Springfield Ohio.

The wedding guests were confined to members of the immediate family, parents of bride, the Miss King of Springfield, groom's sister, the bride's sister and husband, Mr. and Mrs. Willis L. French of Washington, C. H. and Mr. and Mrs. Ensign, of Jeffersonville.

The following interview with Mary Robert Rinehart, noted writer, who has entered politics as a candidate for district delegate to the Republican National Convention from her home near Pittsburg, is of special interest at this time, when the question of Woman's Suffrage hangs in the balance.

Mrs. Rinehart was asked to state her views of the political situation as a representative American woman. Summed up, they are:

"This is one of the most critical periods in the country's history. The nation faces a vitally necessary industrial and economic adjustment, in which every man and woman must aid. The basic economic factor is the home and it rests with the women to take the initiative in measures affecting the home. Autocracy of masses is as bad as autocracy of class. The strongest emotion prevailing in the country today is fear of radicalism.

"The people must shake off their political lethargy and realize that they are the Government. The only time the United States is a real democracy is when it votes. Every four years the country puts all its eggs in one basket and must take its chances until the

next general election. We have been more or less fortunate in selecting our Presidents in the past, but we can't afford to make a mistake at this critical period of our national life.

"There must be no rubber stamp delegates to the national conventions. They must reflect the wishes of the people they represent.

"A nation is really not an entity it is a vast collection of homes. And all national problems must be reduced to the equation of the home."

Figures may be dry, but they are illuminating. For instance, in one month one thousand nine hundred and twenty girls and women were directed to rooms or jobs or advised in some way or another by the Y. W. C. A. in a western city of the United States of 400,000 population. This advisory bureau which handles the problems facing girls who are strangers in a city is only one department of Y. W. C. A. work. If it is multiplied by ten in that one city and then again multiplied by the thousand and more similar association centers in other cities of the U. S., it will give some idea of the scope and influence of the Y. W. C. A. today.

Mr. and Mrs. Gay Townsend, of Springfield, are guests of Mr. and Mrs. David Sutherland.

Mrs. Will Trivello, of Frankfort, spent Thursday with her parents, Mr. and Mrs. A. T. Vincent, and attended the fair.

BEDOUIN MOTHER
BRAVES HARSHIP
TO SAVE HER CHILD

Mother love is the same everywhere. This Bedouin woman is bringing her sick child for treatment to the North Syrian mission. Not only does she carry the child, but she has her bed and her household effects on her back as well. With this load she is making her way over the desert.

PUBLISHED NEWS
TWO DAYS AFTER

Great Contrast is Afforded with Present Day Methods by Item in "News our Grandfathers Read."

"In the 'News our Grandfathers Read' column of Friday's morning's issue of the Ohio State Journal is given another account of the time when Salmon P. Chase, Governor of the state, spoke in this city on August 19, 1857.

The following is from the issue of the Journal of August 29, 1857:

"We understand that the meeting yesterday in Washington, Fayette County, was large and enthusiastic. Governor Chase met with a warm and hearty reception, and everything passed off in first rate style.

"We expect to publish tomorrow a more detailed account of the meeting."

According to this item two full days were required for some one to drive through with the news from this city to Columbus and people in those days did not expect an immediate and full account of the world happenings.

Note the difference: If Salmon P. Chase were to come back to life and come here to speak, it is likely that papers throughout this part of the nation would or could carry his speech in full within a few minutes after it was made—for advance copies of such speeches are usually filed with the press sometimes a week or ten days in advance, and held for release when delivered by the speaker.

It is just a striking example of how times have changed since grandfather was a boy.

HYER HOMESTEAD
IS BURGLARIZED
DURING THURSDAY

While the family attended the fair, Thursday afternoon, burglars entered the John Hyer home on the Eyeman farm on the Chillicothe pike, and obtained \$30 in money and three rings, one of which was a cameo highly prized by the owner.

Entrance was gained by forcing a window. No suspicious characters had been seen about the place and no clew was left that would give the least indication as to who burglarized the home.

BIG DAY OF FAIR
PASSES WITHOUT
A SINGLE MISHAP

Friday Attendance About as Large as That of Wednesday's Crowd.

Exhibits Please Large Numbers And Races Are Best In Years.

Thursday—the big day of the Fayette county fair, passed off so quietly that the average citizen hardly realized that thousands upon thousands of persons were in the city. The attendance is believed to have been even greater than that of last year.

Not a single serious mishap, so far as known, marred the big event, and of the great number of strangers in the city, and the number of fair followers who sometimes "start something" not one was arrested.

The handling of automobiles was so carefully arranged that little difficulty was experienced when the big crowd entered and left the grounds.

The races delighted all who saw them, and the exhibits drew more than the ordinary amount of attention because of their large variety and class.

Friday's attendance was not as great as anticipated, but the racing card was as strong as that of either of the two preceding days.

UNLOADING
A BIG PART
OF THE CIRCUS

Most incident of all incidents on circus day and which is free to all who wish to avail themselves of the opportunity, is the arrival and unloading of three special trains bearing the paraphernalia and animals for the majestic Hagenbeck-Wallace Circus, which is to exhibit here Monday August 23.

One must witness the unloading of these special trains to realize all the paraphernalia necessary for this show to carry in order to present its mammoth exhibition. And in the witnessing of this work one is declared scarcely capable of realizing the skill necessary in the loading and packing of the cars.

Every animal cage, ever wagon, every trunk, ever tent and every piece of material must be placed in an exact location. To have any article vary an inch necessitates the reloading of a car, it is said.

Much time and work is reported devoted in the winter months in arranging details. As the complete program is arranged, work is commenced in laying out the cars. As the opening date draws near, the workers are drilled in the loading of the paraphernalia. Every workman has his exact duty to perform and it must be done like clock-work. Every article must be placed at a definite moment.

It is assumed that no industry is as much material placed on three special trains as is carried on the cars bearing the Hagenbeck-Wallace Circus.

The exhibition will be given on the circus lot at the Old Field Grounds and a downtown ticket office will be opened during its stay here at Sollars Book Store, where the price will be the same as on the circus lot.

OHIO LEADING
IN W. S. S. SALE

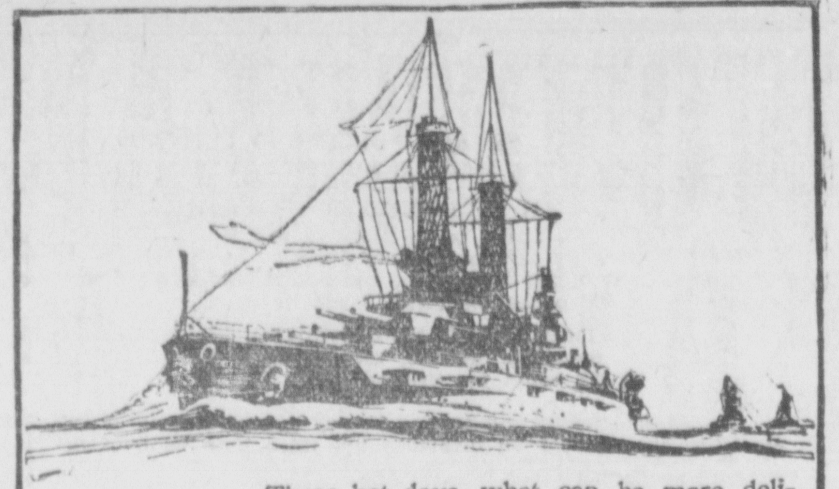

Ohio during the first half of 1920 again showed a clean pair of heels to all other states in sale of war savings stamps. Figures have just been issued at Washington showing total sales in the nation from January 1, 1920, to June 30, give Ohio a big lead over New York, second place occupant. Illinois ended the first half of the year in third place with Pennsylvania, fourth; Indiana, fifth; Kansas, sixth; Missouri, seventh; Massachusetts, eighth; California, ninth, and New Jersey, tenth.

Ohio also led in per capita sales with sales of \$1.10 for every man, woman and child in the state. Other leading states in point of per capita sales finished as follows: Kansas second; District of Columbia, third; Rhode Island, fourth; Oregon, fifth; New Hampshire, sixth; Indiana, seventh; Nevada, eighth; Washington, ninth.

GOOD GASOLINE AND GOOD OIL
MAKE A GOOD MOTOR BETTER

Motoring Habits
.. They're Not All Bad ..

There are a few of them worth acquiring, for instance—

Watching the pressure in the tires; adding distilled water to the battery and having it tested at regular intervals; keeping grease cups filled, and not allow the water in the radiator to run low, and—yes, there's one other—

Drive up to one of our filling stations when the gasoline indicator shows less than half full.

We maintain two of these stations where we dispense *Liberty Gasoline* and *Jesco Motor Oil*, two of the predominating motor products of this locality. At either of these stations you will be served attentively and pleasingly.

FREIGHT WRECK ON THE B. & O. EARLY FRIDAY

Dense Fog Results in Head-on Smash Between Heavy Freight and Yard Engine Near Foundry.

Engineer Smith and Fireman Love Save Lives by Jumping—One Man Hurt.

One of the worst freight smashups occurring on the Midland Division of the B. & O. in recent months occurred within the city limits just east of the Foundry plant, when a heavy incoming freight train met the switch engine head-on, badly damaging both engines and complete wrecking four freight cars, tearing up ties for 200 feet and delaying traffic for hours.

Engineer H. W. Hatfield, on the incoming freight, sustained a badly crushed shoulder in falling as he leaped from his cab at the moment the crash was about to occur.

Engineer C. C. Smith and Fireman E. C. Love, on the B. & O. switch engine, undoubtedly saved their lives by leaping, as a moment after they left the cab the crash came and the engine and tender were jammed together with terrific force, tearing away the cab and leaving the engine and tender together. The switch engine had three car loads of hogs and was in the act of taking the switch in order to clear for the incoming freight. The engine had just reached the switch post when the crew saw the freight bearing down upon them and realizing that the crash could not be averted, they stopped their engine but had no time in which to reverse it.

Engineer Hatfield and Fireman C. W. Hines, both of Newark, discovering that the heavy string of cars back of them made stopping impossible, closed the throttle applied the brakes and leaped. Hines was not injured. Hatfield was taken to the Fayette hospital with a fractured shoulder.

After striking the freight with its three car load of live stock attached, the momentum of the freight carried the shattered switch engine back for 200 feet, scattering broken iron and splintering ties but not breaking the rails or connections.

When the crash came the freight train buckled up some five cars back of the engine, where a flat car was laden with some heavy engine parts. A heavy axle was snapped in twain. Back of the flat car which too the ditch and dumped the engine parts to the ground, was a gondola, empty. This was nosed aside and thrown up on the opposite side of the track from the flat car. A box car containing wheels for U. S. Artillery came next, and was smashed beyond hope of repair. Another box car containing barrels of oil was overturned, and virtually all of the trucks of the four cars were left in a heap upon the roadbed, and virtually no damage done to the road at the point where the cars were smashed.

The "big hook" was summoned and after several hours delay, during which time passenger and freight trains detoured reached the scene and within a remarkably short time had cleared the track so traffic could be resumed.

The property loss to the B. & O. in damaged engines and shattered cars will be heavy, both engines being so badly battered about the front, the pilot and pony trucks being completely carried away.

SECOND WRECK ON B. & O. RY.

Wreck Train On Way to This City From Chillicothe, Stops to Help Passenger Train.

The east bound passenger train on the B. & O. was held up for sometime and delayed other traffic, Friday morning, when the trucks of the tender left the rails near Fairview, seven miles east of this city.

The wreck train had been summoned from Chillicothe to clear up the freight wreck in this city, and it made short work of replacing the derailed

trucks when it once reached the scene.

In the meantime traffic was tied up and the west-bound morning train did not arrive until nearly noon.

THIRD WRECK IN SINGLE DAY

Big Freight Engine and Load of Lumber of D. T. & I. Are Derailed

The third railroad wreck in and near this city occurred about noon Friday, when a freight engine and car load of lumber were derailed at the B. & O. D. T. & I. Transfer near the ice factory, blocking both the D. T. & I. and the B. & O. tracks and making it necessary to call the wrecking crew from Springfield to replace the engine and car. The turning of a rail had caused the derailment.

By using the various switches of the two roads traffic was continued, even though the main lines of the roads were temporarily tied up.

The third wreck, coming in so short a time, created much comment in railroad circles.

PROMINENT LAWYER ENDORSES DRECO

Was Weak, nervous, run-down, could not sleep, had no appetite, suffered from headaches and liver was sluggish. Dreco relieved all these troubles.

"My health is better than it has been for years and I feel like a different person," are the words of that well known and highly respected lawyer Mr. J. B. Ferguson, of Cambridge, Ohio.

"When I began taking Dreco I was very thin and felt tired and listless all the time. I was weak and highly nervous, and my sleep was broken every night. Headaches often attacked me and also dizzy spells caused me much anxiety.

"My appetite was poor, but worst of all, no matter how little I ate, it disagreed with me, causing me pains in my stomach, and general uneasiness."

"There was so much praise being given the new root and herb medicine Dreco, I decided to try it, and to say that I am happy over the results is expressing it mildly; for my stomach troubles are gone, I eat big, hearty meals, and nothing disagrees with me now. I don't know what it is to have a headache or dizzy spells my nerves are quiet and I sleep the whole night through without waking. I go about my work with new energy, and am not tired out when the day is over. Yes sir, I am proud of what Dreco has done for me, and you certainly have my permission to publish this in the papers."

All druggists now sell Dreco and it is being especially introduced in Washington C. H. by Frank Christopher. — Advt.
